**Landry Construction Provides  
Service in all Methods of  
Project Procurement**

**CONSTRUCTION MANAGEMENT**

- Landry Construction believes that CM is the best project procurement method. Working together with the Owner and Architect, Landry Construction is part of a cooperative team that ensures a building project of superior quality at the best possible price.

**DESIGN / BUILD**

- Working together with an Architect who specializes in the design of the project to be done, Landry Construction forms a design/build team that assumes most of the risk before turning the building over to the Owner.

**DESIGN, BID, BUILD (General Contracting)**

- Landry Construction offers competitive pricing and superior project management in the traditional General Contracting (GC) process where the Owner hires an architect and bids the project to several qualified contractors.

**ATLANTIC REGIONAL FCU - Topsham ME**

- Pre-Construction Estimates
